

Quality Policy

At Centrogen, our commitment is to continuously improve the safety, compliance and quality of our products and services and to provide the necessary organisation, direction and training to fulfil this commitment.

The scope of the quality management system applies to all aspects of our business including management, planning and consulting for built and natural environments with a primary focus on vegetation. The design and development Clause 8.3 does not apply to our Company scope and activities.

Management at Centrogen is committed to:

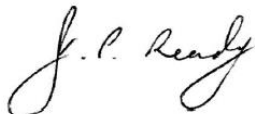

- Taking accountability for maintaining an ISO 9001:2015 certified Quality Management System;
- Ensuring that there is assigned responsibility and resources as needed;
- Ensuring the integration of quality management system requirements and conformance into business processes;
- Providing a range of services that conform to contractual and regulatory requirements that meet or exceed the requirements and expectations of our clients, the public and our employees;
- Providing a safe efficient and cost effective vegetation management service to our clients;
- Introducing and developing new technologies and methods where there are advantages to the client, organisation, safety and the environment; and,
- Promoting and pursuing continual improvement of the quality management system.

Centrogen's Strategic Map 2018 – 2023 is the framework that sets out our Company's quality objectives.

Management takes accountability for the effectiveness of the quality management system and will periodically review its performance against our quality objectives to ensure it achieves its intended results.

Centrogen is committed to continual improvement of its quality management system. This Policy will be communicated to all clients, employees and contractors and is available to interested parties via our website at www.centrogen.com.au

Everyone is responsible for quality management within Centrogen.

John Ready – Managing Director
